Worth of Property to be Given away!
Great Inducements offered to Persons
WISHING TO VISIT THE COAST!

ON AND AFTER WEDNESDAY, MAY 29TH, TILL August 1st, 1867, the well known and fast sailing STEAMER
U. S. GRANT,
Will make Two Trips per Week to the
CITY OF ASTORIA!
Carrying Passengers at $10, the Round Trip, (Meals Included.)

The Boat leaves Portland Wednesdays and Saturdays at 7½ A M. Returning leaves Astoria Thursdays and Mondays at 6 o'clock A M.

Every person purchasing a Passenger Ticket will be presented with one of 200 Prize Tickets, to be drawn on the 1ST DAY OF AUGUST, 1867 for the following Prizes:
Steamer U S GRANT, to be divided into 4 shares;
ONE BLOCK OF LOTS IN EAST PORTLAND, divided into 8 shares, or one lot to the share, viz Lots 1, 2, 3, 4, 5, 6, 7 and 8, Block 17, opposite the "New Columbian" Hotel, and at the terminus of the proposed Suspension Bridge.
ONE GOLD WATCH, worth $100;
150 CORDS DRY FIR WOOD, in 3 shares, to be placed on the Brooklyn Wharf.

The Steamer is 54 tons burthen, 52 horse power engine, propeller wheel, draft of water 5 feet. She is being thoroughly refitted and refurnished as a Passenger Boat. The Boat will be delivered in perfect order, free from all incumbrance, and Warranty Deeds made for the real estate to the persons drawing the same. Tickets can be had of C P FERRY, in Portland, where the money will be left on deposit till the prizes are drawn and delivered.

Any person having a claim against me, and wishing a ticket, can get an order for one by calling on me on board the boat. The person drawing the gold watch can have $100 in gold coin, if preferred.

C P FERRY, Broker, R. J LADD, ex Sheriff AL ZEIDER, U S Marshal, and C S SILVER, Merchant, of Portland, are the Committee and Judges to direct the Drawing of Prizes. The Prizes will be drawn before the 1st of August if all the tickets are taken before that time.

The above liberal offer is made to the traveling public to enable the subscriber to pay his debts and not with any reference to speculation, as all the property is valued at much less than its cost, (the Steamer alone having cost $11,000), and the price for carrying passengers to Astoria being much less than the usual fare.
Portland May 21, 1867 d2m J W KERN

Notice.

OWING TO THE STEAMER U. S. GRANT having lost several regular trips, she will continue to run for a few weeks, to give all ticket holders an opportunity to travel. The tickets stand good for a passage as long as the boat continues to run. A few more tickets yet to be disposed of.

PIONEER WASHER.
E. G. BOLTER,
AGENT FOR OREGON AND WASHINGTON TERRITORY

THIS CELEBRATED WASHING MACHINE IS now for the first time introduced to the Oregon public. It is unrivalled for its simplicity, durability and the rapidity and ease of its action. Washing the dirtiest clothes perfectly clean in from five to ten minutes with but slight labor, and lasting with proper care, for ten years. The wear and tear of clothing in washing by this machine is vastly less than by any other known process of washing. It does its work by a reverse motion in forcing the water through the clothes.

It having a tight cover, the steam thus assists materially in cleansing the clothes and also avoids the inhaling of steam from hot suds.

This Machine captured the Special Premium at the California State Fair and all that have used it pronounce it an invaluable adjunct to aid housekeepers and families and washing men and washing women.

It has been extensively introduced throughout the State of California and receives the universal commendation of all who have used it.

THE COUNTY RIGHTS now unsold will be sold at a bargain if applied for soon.

A Confederate Monarchy

The New York *Citizen* is publishing a series of papers under the title of "Rummages through Rebeldom," from which we make the following extract. The author took a prominent part in the rebellion and may be relied on as telling the truth. He confirms what we have already heard from other persons that it was the intention of the leaders of the Confederacy to establish a monarchy.

And here, by the way, a word with regard to the notion of a monarchical government, as it was then permeating Dixie; it grew as the war expanded, and would unquestionably have taken root into effect, had the Confederacy triumphed. Very few of the "better classes" held opinions at variance with what was called "the inevitability and indispensibility of one man rule."

Of the high officials, the President was not known to have expressed any decided opinion—beyond saying that a "limited constitutional monarchy had in it more elements of security for the public weal than any other system of known government." Mr Stephens, the Vice President, held tenaciously to republicanism, and was hostile to the intermixture of the slightest political ingredient of a foreign character. Mr Toombs, the Secretary of State, was for some sort of constitutional despotism; he would like to call the roll of the people, as subjects, just as he wished to call the roll of his slaves on Bunker Hill. Mr Memminger, Secretary of State, was in favor of a plan that would graft republicanism, as interpreted and tried in America on the old Dutch regal system. Mr Walker, the Secretary of War, was for any style of government that would keep the peace and keep him in office; he was disposed to think republicanism, *per se*, as understood and practised, governmentally, here a failure. Mr. Mallory, Secretary of the Navy, was very monarchically inclined, but he dreaded that an immediate change would lead from one extreme to another—from passive freedom to positive absolutism. Mr Benjamin, the Attorney General, would have preferred intelligent tyranny to ignorant license—a high bred entity call him an autocrat, to a low bred nonentity, call him a President—every man to be ruled by one, rather than every other man rule his neighbor—a government for the people—law in the hands of concentrated might, rather than in the clutches of scattered and and irresponsible mobs. Mr Reagan, the Postmaster General, was for any change which did not bring up the odious name of king or the idea of royalty.

Thus much for the chiefs. For the upper classes of "the people" this much—they were ready for the sowing of regal seed, and in due time it would have grown and fructified. On all hands "the grand experiment" of a republican form of government was pronounced "tried and found wanting." Out of respect to the clinging attachment of the masses to the idea, a further trial of "the experiment" was allowed, but that it would pass the ordeal was doubted by every other man you met, of the "better classes." Generally speaking, all Dixie's "upper ten" favored a monarchical system. One of the underground schemes quietly at work anent the nation, was the gradual dissemination of regal views through the press and in conversation. These were to ripen ultimately, by the erection of each State into a kingdom. Then all were to concur in the formation of a central power—a sort of political Zollverein which would hold the terms of confederation as regards separate independencies that were now held under a President and Congress.

Johnson Hooper, the Secretary of the Provisional Congress, was an active mover in this, and he had as auxiliaries leading men in all the Cotton States. Incredible as it may seem to you, this notion was very general—although the excitements of the war weakened the action, they strengthened the motive. It was, I might say, a foregone conclusion, and I am certain it has not yet been erased from the Southern mind. The great difficulty which presented itself was as to the choice of hereditary sovereigns, if the principle was to be established. Most of the prominent men of the day were of the "unescutcheoned" order. That would never do. Blood must be found—true blood of the F F quality. To import scions of royalty would, in a certain contingency, be desirable, but to invest family nobodies with royal rank would be an outrage. Then came the question, who were Crowns, or the Hapsburgs, or the Stuarts or the Guelphs, or the Bourbons, or the Romanoffs, or the Napoleons, or any of the "royalties," before they were chosen for, or grasped, the sceptre? They were of excellent family or dexterous or daring men. Had not South Carolina Hamptons and Prestons to answer? Had not Virginia Lees, and—and—and—oh! such a stunning array of bloods that I dare not single out any more. Perhaps I was premature even with that name.

So of all the States. Where any of them was deficient in the older family article, Virginia, the "Mother of Presidents," was ready to nurse kings, or had them ready nursed for adoption. Family worth, not wealth—the family tree, not the family treasure—was to be the criterion. Perhaps you imagine that I am exaggerating. I solemnly assure you that I am not. More than that, I honestly sympathize with the idea, and heartily wished it success, whenever, if ever, it had the chance of being tried. I, too, looked upon Republicanism as a failure, and came to the conclusion that it was drifting into the most odious sort of despotism at both sides of the line. However much it may disgust you with me, I am bound to add that in my opinion, more despotism has been put in full force on this continent within the last four years, than in England within the last quarter of a century. In those four years I include the last years of the Confederacy, where despotism became as rampant as it had been here before or has been since. This I say as a personal frankness *en passant*.

So much for my opinion. Now for a resumption of the facts that led to it. Of all the "possibles" set down for the royal function, Jefferson Davis was excluded in every discussion which I heard on the subject. Some enthusiasts now insist that he was of royal Phœnician blood, and that the name was originally David, corrupted into Davis. The object was to give him the Psalmist's lineage. In attestation of this "the classically" of his countenance was cited. To that a formidable objection was once urged, which silenced the advocates forever. The answer was this. Out of the hundred or more slavedealers in Richmond, the majority rejoiced in the name of Davis as against other names and many of them have personally the same style of features as the President. Had they not as good claims as he to the substitution of "s" for "d" in their names? Had they not higher pretenses to the Psalmist genealogical tree, inasmuch as they are Jews and he is a Gentile.

DECREASE OF POPULATION IN CALIFORNIA.—We find the following in the commercial article of the Sacramento *Union*:

The greatest and only draw back to business, is the want of population. I have the best of reasons for believing that the population of the State has actually decreased during the past two years, notwithstanding the general prosperity. I am aware that the commercial papers in this city publish returns of passengers who arrive and depart by sea, and by those returns make it appear that we have gained quite an increase. But a moment's consideration of the returns will prove their fallaciousness. Nevada and Arizona are inhabited by persons almost exclusively from this State, while Montana, Idaho and Utah have, collectively, several thousands of residents who went from this State, not one in ten of whom went by water, and of course have not been counted among the departures by that means, though every arrival has been. The Central Pacific Railroad takes nearly twice as many passengers out of the State towards Nevada and Utah, as it brings in. The same may be said of the stage lines to Idaho and Montana, from Chico and Red Bluff and of the Oregon stages, besides the swarms of Chinese and others who leave the State on foot or by teams. It is estimated that there are 10,000 Chinamen in Boise and Montana, probably not 100 of whom went there by sea, and of course have not been "counted out" though they were counted in. I do not believe there is more than half as many Chinamen in California to day, as were here eighteen months since, while these "returns" make it appear that we have more. The effect of this decrease in the laboring classes is seen and felt in the difficulty farmers and others in the interior of the State, experience in finding help at higher rates of pay than have ruled for years before.

The Daily Oregonian.

SATURDAY MORNING, AUGUST 31, 1867.

The Truth Comes Out.

The *Columbia Press* is giving some interesting facts in the secret history of the late Democratic Convention at Umatilla. It is moved to this proceeding in its own defense, and to clear the Convention of the imputation of "conservatism." It will be remembered that the free expression of Democratic sentiments in the Convention was stifled by a resort to "policy dodges," and by the adoption of a set of weak resolutions which have since been very generally repudiated, or at least, violently assailed, by the party. The editor of the *Press* scouts the idea that the majority of the Convention had the least relish of "conservatism" in it; affirms that he was not the only person who opposed the resolutions which were adopted, and declares that there were not three men in the Convention who did not endorse "radical (Democratic) sentiments." They only "refrained from supporting them because they did not consider it the time or place to announce a platform of principles." There was a minority report embodying these "radical sentiments," which was not accepted because the Convention, as one of the delegates avers in a communication to the *Press*, "deemed the occasion inopportune for their enunciation." The real sentiments of the Convention were those of "radical Democracy," and proof is furnished that the minority report embodying them was endorsed by every member of the Convention. One individual who bore a prominent part in preventing any enunciation of genuine Democratic doctrines on the occasion, remarked "that there was not a letter or a line (in the radical minority report) which he could not endorse—that he had stood by these principles all his days—that every Democrat in the house supported and endorsed them." Yet the Convention suppressed this report embodying its real views, and put forth a series of resolutions which were very mildly drawn, and which a vast majority of the party treats with contempt. All this was done, as we remarked at the time, at the instigation of certain foxy politicians who hoped by this course to deceive unsuspecting people as to the real character of their party. The purpose was to create the impression that the party had abandoned its objectionable ideas, that it had become very moderate in its views and purposes, and that there was no reason why any Union man or Republican should hesitate to give it his support. With this object in view the natural enthusiasm of the members of the Convention was repressed, and "conservatism" got a triumph. We stated these facts at the time, yet they were denied by an editor who himself was chiefly instrumental in "muzzling" the Convention. But our statements are fully confirmed by the *Columbia Press*, whose editor took a leading part in the doings of the Convention, and who furnishes proof to show that, though the Convention did not give utterance to the views of radical Democracy, it was, nevertheless, radically Democratic in sentiment. In other words, its real principles were those of the late rebel Confederacy, but it thought it had policy to proclaim them.

The more adroit of the Democrats tell us that old issues are defunct, and that the Democratic party should henceforth be judged irrespective of the questions which entered into the rebellion. The Oregon Copperheads and the Tennessee rebels say No. And Semmes, of *Alabama* notoriety, now editor of the Memphis *Bulletin*, speaks with equal plainness. "We are acting under duress," he says, referring to the reconstruction law; "if at any future time, the Democratic party should get into power, what is to prevent a three-fourths majority of the States from again remodeling the Constitution at pleasure." Aye, what is to prevent them undoing the work of the Union party, and reconstructing matters anew in the interest of the State Rights Democracy? That is the inquiry propounded by Semmes, and a very natural one it is. There is just one point, however, which Semmes and the Copperheads overlook. The Unionists of the country do not intend to give the Democrats the opportunity of making the experiment.

A report reaches the Olympia *Tribune* that both surveying parties engaged in the search for a route for the Northern Pacific Railroad reached the summit of the Cascade mountains several days ago. It is also reported that the Snoqualmie pass is 1,400 feet high, while the Cowlitz or Packwood Pass is 2,000 or 3,000; of course there is a good deal of conjecture with this; there is no doubt but in a few weeks we will have information that will set at rest all future speculation.

The following is from the *Union's* money and business article, dated San Francisco, August 23d

The past has been another busy week in nearly every branch of business in this city. The quantity of goods disposed of by importers, jobbers and auctioneers, will foot up several millions of dollars, with every indication of a steady increase of trade. As a general thing, all descriptions of goods are cheaper. The proportions of the business of this city renders a sharp competition inevitable, and with it high prices cannot be maintained. The enormous proportions of our exports of produce, other than treasure, is causing such an accumulation of bullion and coin that it is quite possible that money itself will be cheaper here than any where else, within a few years. Things are tending this way now, with a rapidity that baffles the calculations of our keenest financiers. The fact must be recognized, sooner or later, that the country which has the most genial climate, produces the best wheat, the most varied fruits, the finest cattle, and the most gold, must afford the producers a greater share of life's enjoyments than those countries where "winter lingers in the lap of spring;" where unceasing care is incident to every scant crop gathered from an impoverished soil. Only make money as cheap here as in New York or Boston, and in ten years our population would be trebled, because cheap money would encourage every branch of manufactures that give employment to labor; without which it is not reasonable to expect laborers will come here. Since money has been available at 10 per cent. per annum, mark the rapid increase of manufactures, as compared to the time when money was from 30 to 60 per cent. The increase would be still greater were money but 6 per cent.

THE PESTS OF SALT LAKE.—The *Deseret News* of August 14th says:

The destructive insects that have been doing so much damage around this city recently, as well as in other parts of the Territory, and that have been passing apparently southeast in such innumerable myriads for some time, flying at a great altitude, have excited no little interest as to what they are, where they come from and their probable destination. Though commonly known as "grasshoppers," their destructive habits, their power of flight and immense numbers led to the belief among entomologists here that they are of the locust family, and on examination they have been found to be so, though not the insect commonly known as the locust throughout this country.

A NICE AFFAIR.—Chief Justice Needham, of Vancouver Island, has ruled that all titles granted by Sir James Douglas and John Work, for the Hudson's Bay Company, are defective. Considering that the town site of Victoria has, in nine cases out of ten, been purchased under that title, the poor property holders are to be pitied. Between depreciation of property, heavy taxes, and now, through the decision of a lately imported Judge, with a defective title to that property, the people of that place had better emigrate to a more favored locality.—*Seattle Gazette.*

GENERAL GRANT AND THE PRESIDENTIAL TOUR.—The Washington correspondent of the Boston *Advertiser* says:

Another fact connected with General Grant's evidence has leaked out. He says, in reference to the Presidential tour last summer, that he was first invited to go by the State Department, and declined, and he did not waive his own objections and consent till he had been personally urged by the President to accompany the party.

[DISPATCHES TO THE OREGONIAN.]

DATES TO AUGUST 28.

Washington News

WASHINGTON, Aug 29.—Grant issued an official order to-day, in compliance with the President's instructions, assigning Hancock to the command of the Fifth District, and directing Sheridan temporarily to turn over the command to General Griffith and proceed directly to Fort Leavenworth to relieve General Hancock. The order contains no instruction limiting General Hancock's authority.

To-day's *Intelligencer* feels authorized to deny the reports of any personal differences between Grant and the President, but the Associated Press reporter says that that paper is not correct in announcing in the same connection that whatever may be their views in matters of detail, there is no conflict between them as to the prerogative of each. On the contrary, it is known that there is a very decided difference regarding legal questions affecting their respective powers and duties under the reconstruction act.

An agent of the Agricultural Department left yesterday to make a tour of observation North and West, and complete the statistical items for that region and revise and correct the present system of collecting agricultural statistics.

The New York *Post's* special says after careful investigation among Grant's friends, it is generally agreed that his authority is confined merely to the approval or disapproval of the acts of district commanders in removing disloyal officers. This is regarded as a great omission by Congress.

NEW YORK, Aug 30.—The *Tribune's* special says the friends of Seward say he will not leave the cabinet.

Negotiations with Great Britain for the settlement of the *Alabama* claims on the basis of the cession of British Columbia are progressing satisfactorily. Also negotiations are progressing for the acquisition of other territory. It is believed that Seward is the only man who can successfully complete them, and these reasons outweigh temporary political considerations, therefore Seward will remain.

All special correspondents agree in saying that General Grant has withdrawn his letter protesting against Sheridan's removal acknowledging that he had misapprehended the powers conferred upon him by law.

Army News.

A General Court Martial is ordered to meet at Fort Leavenworth, September 16th, to try Gen. Custar and other officers. Among those detailed are Brevet Major Generals Hoffman, Davidson and Grierson, and Brevet Brigadier Generals Morgan and Callender, and a full board of other officers. Captain Robert Chandler is Judge Advocate. The charge against Gen. Custar is leaving his post without permission.

Gen. H. B. Emery has been ordered to relieve Canby in command of the Department of Washington.

Popular Government in Canada.

MONTREAL, Aug 29.—At the nominations for members of Parliament were made to-day. Cartier's friends raised a riot, and the troops were called out. The cavalry charged in two squadrons and guarded the candidate home. The casualties are very severe, and numbers over thirty. None are reported to be fatal.

Registration in Virginia.

RICHMOND, Aug. 29.—The returns from all but ten counties show that the whites registered are 110,000, blacks, 90,000. Four of the remaining counties will give large white majorities.

The newly elected officers qualified to-day. The old Board of School Directors intend to test the legality of the Council.

The American residents in Mexico, have tendered a public dinner to Minister Ottenburg.

Miscellaneous.

NEW YORK, Aug. 29.—The frigate *Colorado*, Admiral Goldsborough, has arrived from Europe.

Laura Keene sailed for Europe yesterday.

The walls of two new buildings on Twenty-second street fell this morning. One laborer was seriously injured.

The Daley prize fight to-day lasted two hours. O'Brien, one of the contestants, is in a critical condition.

Seven Internal Revenue Inspectors were decapitated to-day for want of employment.

Susan Anthony and Elizabeth Stanton, left to-day to advocate woman suffrage in Kansas.

PHILADELPHIA, Aug 29.—Winnemore was executed to-day, for the murder of Mrs. Magellon. He made a speech protesting his innocence.

NEW YORK, Aug. 29.—Advices from Hayti, state that another revolution is eminent. Advices from the English Consuls at Cape Haytien, report fighting actually commenced at Port au Prince, which is besieged.

United States Minister died at Caraccas on the 8th.

The attempted revolt in Uruguay, was suppressed and the ring leader captured.

Advices from Vera Cruz to the 13th, say Lopez is still alive. Marquez was not captured. The trial of O'Hara is progressing.

NEW YORK, Aug 29.—Solomon Simms' distillery was burned to-day, loss, $100,000.

Albert Beecher, son of Rev. Edward Beecher, of Galesburg, Ill, and two daughters of Rev. Chas Beecher, of Georgetown, Mass., were drowned on Tuesday, by the capsizing of a boat at the latter place.

CHICAGO, Aug. 30.—The *Tribune's* special says there is an effort on foot to secure the removal of Commissioner Rollins, and the appointment of Gen. Steadman.

It is considered significant that simultaneously with the beginning of Johnson's late movement, the conservative Army and Navy Union met and reorganized. This body last October expressed sympathy with Gov. Swann, of Maryland.

Fernando Wood, accompanied by Mr. Cole, of the *Intelligencer*, had a long interview with the President today.

Mr. Black's recall to Washington was the result of a ludicrous mistake. It appears that Seward addressed a note to the Turkish Minister Blacque, intimating that the cabinet was about to break up and he would like to see him. By some means this reached the office of Judge Black, who telegraphed to his father to come back immediately, when the fact of the mistake came out. This is Seward's version of the affair.

The *Times'* special says the order removing Gen. Howard is expected Monday.

It has been learned from the French legation that the French made no intercession with Juarez to receive the remains of Maximilian.

Efforts are being made to induce our Government to intercede in behalf of Salm-Salm, now under sentence of death in Mexico.

The Richmond *Examiner* opposes the removal of Sickles.

The *Tribune's* Nashville special says that exciting reports are received from various portions of Middle Tennessee of the deplorable condition of affairs, indicating a reign of terror. In some localities the militia have been called for.

Judge Fowler, of Williamston, N. C., has decided that negroes are entitled to sit on juries in that State.

BY ATLANTIC CABLE.

BERLIN, Aug. 29.—Minister Bancroft has been treated with unexampled courtesy by the Prussian Court. Yesterday, by the invitation of the King, he accompanied Bismark to the Royal residence at Potsdam, where he was received with unusual attention and had over three hours interview with the King and Prime Minister. In the evening Bancroft dined with the King, who afterwards took him back to Berlin in the Royal coach.

LONDON, Aug. 29.—Active preparations are being made by the Admiralty and War Office for the expedition to Abyssinia. Sixteen steamers have been chartered for the transport of troops.

Advices from Athens denounce as false the reports of Omar Pacha's success in subduing the rebellion, and say that the rebels still hold out in the mountains.

PARIS, Aug 29.—The *Moniteur* says: Recent conference at Salzburg is a new pledge of peace for Europe. Much uneasiness prevails on bourse. In consequence of an apprehension of war, rentes are declining.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, Aug. 30.—Local news quite meagre. John F. Shirhold has commenced action in the Twelfth District Court as the Administrator of the estate of C. G. Scheirhold, deceased, against the North Beach and Mission Railroad, to recover the sum of $200,000 damages for the death of deceased. Plaintiff alleges that on the 29th day of May last, defendants left a quantity of wood and lumber piled at the side of their track, so close that persons were unable to pass and avoid the cars; that deceased, a child about seven years of age, was caught there and trampled under the feet of defendants horses attached to the street car and killed.

Michael Bird, who was injured yesterday by the falling of a building on California street, died last evening at St. Mary's hospital.

HORRIBLE MURDER.—We take the following from the *Alta*, dated San Juan South, Aug. 21st:

"This morning the dead body of Wm. Fitzgerald was found in Alameda street, horribly mutilated—beat to death with clubs and stripped of all clothing. Suspicion was entertained that an Indian of bad character, named Esteban, who had been seen passing through town early in the morning, was the murderer, and a party of citizens started in pursuit, scouring the country in every direction. They found and arrested the Indian, with the most positive evidence of his guilt, wearing, in fact, the murdered man's bloody clothes when arrested. At two o'clock P. M., he was brought into town by a large company of mounted citizens, carefully and deliberately examined, in accordance with Chief Justice Lynch, in the presence of the populace, and without one dissenting voice, condemned to expiate his revolting crime by instant death on the very spot where the murder was committed and in the presence of the still unburied remains of his victim! This sentence was carried out forthwith by hanging the prisoner to the tree under which Fitzgerald was killed. Before his execution, Esteban made a full confession, said he found Fitzgerald asleep under a tree in Alameda; he thought he had money, and thought it best to beat his brains out with a fence stake to make sure of getting it. Finding no money, he took the clothes off the body. The boots being too small he left them near the scene of the butchery. He accepted his fate with the utmost indifference, asked no favors, and died like an Indian.

Reported Coaling Station.

The *Bulletin* of a late date has the following article:

Some weeks since we chronicled the return of the schooners *Leah* and *Caroline Mills* from an unsuccessful search for the island reported discovered about 1,500 miles west northwest of this port. These vessels sailed on or about the 5th of June, and were followed on the fifteenth of that month by the schooner *Milton Badger*, which cleared for Honolulu, but which common report asserted the same destination as the other schooners. The latter vessel took a considerable amount of cargo, consisting of coal, lumber, provisions and a large screw lighter, which it believed was sent by the Pacific Mail Steamship Company, to establish a coaling depot for their China line of steamers on their return voyage to this port. The *Milton Badger* has now been gone nearly two months, and a report is in circulation that she sailed first for Brooks Islands to establish a coaling station for the outward bound China steamers, and on her return would make search for the island reported for which the *Leah* and *Mills* made unsuccessful voyages.

Brooks' Island seems most advantageously located for an outward coaling station, it being situated in 177° 10' west longitude, and 28° 15' north latitude, the intersection of the lines being about the center of the group and surrounding reef. These islands were discovered by Captain N. C. Brooks, in the bark *Gambia*, while in search for guano, some years since, and up to this time are not laid down in any known general chart. Imray's latest chart of the North Pacific, published in 1867, has an island marked doubtful, located about 10 miles SE, Massachusetts Island, also marked doubtful, located about 20 miles NNE. Capt. Brooks made a thorough survey of the group of islands called by his name, and being a competent navigator, his location of the island was considered by sea captains as being correct. The islands are two in number, the larger one of a crescent shape lying to the eastward of the other, which is of an oblong shape, both being surrounded by a crescent shaped reef, the extreme going in 28° 06' and 28° 20' N. latitudes, and from 177° 00' to 177° 16' west longitude. On the west side between the two ends of the crescent is good anchorage in 12 fathoms water, while at the north and south points and in the centre, there are passages to the lagoon inside where good anchorage can be had in from 9 to 14 fathoms. Between these passages a reef of rocks extends on which the sea breaks. The height on both islands is only 9 feet, a portion of them being even lower, while vegetation is found on both, the westernmost island being partly barren. Millions of sea fowls resort to these islands, which were covered in many places with eggs of various kinds. The outer edge of the reef is submerged, with a natural sea wall of decayed coral on the northwest and southwest points; while the eastern side of the lagoon is sand banks in from one to two fathoms water, the bank being close to the edge of both islands, the larger of which is best adapted for station use. Fish, seals, and turtles were abundant, while a somewhat brackish but drinkable water could be had from wells dug on the islands.

It will be seen, from the foregoing description, that the islands are not only well located for a coaling station midway between this coast and Japan, and in the route which experience has shown must be traveled to make quick passages, but the harbor is most excellent and the shores well adapted for despatch in loading coal. We understand that the chart of this and adjacent islands, surveyed by Capt. Brooks, is in the hands of Thos. Tennant, nautical instrument maker, of this city, and, as the other islands surveyed are in many instances improperly located, he purposes, if the prospects are satisfactory, to have them lithographed for sale. Some of these islands are most dangerous to vessels, numerous wrecks having been found on the surrounding reefs by Captain Brooks when surveying. On one island the wrecks of three ships and a Japanese junk were found, while on others one or more vessels and rafts and timbers were seen, plainly indicating the dangerous character of the locality to shipping.

THROAT AFFECTIONS AND HOARSENESS.—All suffering from *Irritation of the Throat* and *Hoarseness* will be agreeably surprised at the almost immediate relief afforded by the use of "*Brown's Bronchial Troches*." The demulcent ingredients allay pulmonary irritation; and, after public speaking or singing, when the throat is wearied and weakened by too much exercise, their use will give renewed strength to the vocal organs.

"WAIT A FEW DAYS."—Those Ladies who wish to purchase truly good, cheap and handsome Dress Patterns, should wait till KOHN & FISHEL receive their new stock of goods by the steamer to arrive on Saturday. To those gentlemen who come here strangers, we would say, "Do not be deceived, by clap-trap advertisements, but go to KOHN & FISHEL'S for either fashionable or durable Clothing; you will there get an honest, square bargain. REMEMBER! New stock of goods early next week.

Buchtel's Photograph Gallery is the only establishment in Oregon that is thoroughly prepared to do *all the different styles* of work in the art. Photographs from card to life size. *The new cabinet cards*, &c., &c. Small pictures enlarged (retouched in India ink—painted in water-colors or oil by Mrs. S. J. Rumsey. Pictures that are fading can be reproduced in this way. All negatives taken in this gallery will be carefully preserved, and additional copies had. I have now on hand a very large collection of negatives, the names of which are recorded alphabetically in a book for that purpose that can be seen in the reception room.

Rheumatism Cured!

State of Oregon, County of Multnomah—ss

I JEREMIAH BROCK, BEING DULY SWORN, SAY that I am fifty three years of age, that I reside in Yamhill County, State of Oregon. I came to Portland on business, on horseback, from my home this morning. When I left home I could scarcely walk or stand on my feet, from Rheumatism, which has afflicted me for the last eight years. I was standing in Wilson's stable, on First street, in this city, when I heard Mr Rennick's offer to bet that he would take out the Rheumatism in any case in twenty minutes. Rennicks offered to bet $100 that he could do it. I went to Mr. Rennick's house and he applied the Liniment to my leg, and in twenty minutes my leg felt sound and limber, and as well as ever. THE CIRCUS.—Lee & Ryland's Circus will show at Oregon City on Monday evening and in this city on Tuesday and Wednesday evenings, September 3d and 4th.

OREGON CITY ITEMS.—We clip the following items from the Oregon City *Enterprise*: Several teams with families direct from the Mississippi Valley, have entered this part of Oregon within a few days past. The P. T. Company have raised the height of the basin cribs at the southern end, considerably, and are now engaged in filling the whole with rock.....The third game of base ball, between the second nine of the Clackamas Club, and the Highlanders, of this city, was played on last Saturday, and won by the former by 21 runs. The game was a very exciting one, and lasted nearly three hours.....We are pleased to state that the Clackamas bridge has been repaired in a substantial way the past week.....The Woolen Manufacturing Company at this city now begin work at 6½ A. M., in order to crowd in all the daylight possible, being just at this time pressed to fill their orders. Many of the employees are making good wages on over-work.... Whatever may have been said heretofore with reference to the working of streets in this city, this year it has been well done. Center street, and Fifth and Seventh streets, on the bluff, have been repaired so that they can be used the year round. Main street is now receiving repairs long needed, below the Congregational church. We agree with Mayor Ralston in giving Commissioner Ryan credit for the manner he has conducted the work this year.....At the late session of the M. E. Conference, Rev. I. D. Driver, and Rev Mr. Waller were appointed to act with the school committee of the Oregon City Council, Messrs. A. J. Apperson, C. W. Pope, and J. W. Lewis, in disposing of the block of land and the building thereon in this place, known as the Oregon City Seminary. The property was purchased by the city, for the sum of $4,000, and now we own as fine a public school building as any town of the importance of this could desire.

VANCOUVER ITEMS.—The subjoined items are from the Vancouver *Register*: A great deal of sickness, especially among children, is prevalent in this neighborhood at present. Several deaths have occurred and it is feared that unless a speedy change in the weather takes place, the result in some cases will prove fatal. The cholera morbus seems to be most common.......Some of the young bloods in town are about forming an amateur Dramatic Association for the purpose of providing an agreeable past time during the coming long winter evenings.....Another party is being formed for the ascent of Mount Hood in this place—the trip to be made about the middle of September.....The levee is being considerably improved by Col. Hodges. Piles have been driven along the river bank on the military reserve and they are now being planked and capped. This work, when completed, will form a substantial bulwark and prevent any further washing away of the banks......On Monday next the annual parade of the Portland Fire Department will take place. An invitation has been extended to the different Companies of this city to participate. General Allen No. 3 will turn out in a body taking with them their apparatus, while Vancouver No. 1 and Vigilance H. & L. Co. No. 1 will send a delegation each.......The First Nine of the Sherman Club and First Nine of the Occidental Base Ball Club will play their first match game of the season in this place on next Wednesday, Sept. 4th, at 9½ o'clock A. M. The Sherman Club, which is principally composed of soldiers stationed at this post, have undergone a thorough course of practice and seem to be confident of success.

SCHOOL BLOCK, NO. EIGHTY.—In the course of a short walk, of eight or ten hours, about the city, yesterday, we happened upon Block 80, where the new school house is in course of being finished. The building is very conspicuous from a distance, but one cannot realize its imposing size and height, without going near it. We do not now recollect the size, but it is large enough, not only to cost a good round sum of money, but to accommodate a great number of pupils. The frame is a strong one, more perfectly braced and stayed in every direction than, perhaps, any building in the city. Even the ribs for receiving the laths, are put on the studding diagonally so as to serve as braces. It has a basement of the whole size of the building, divided into rooms of convenient dimensions. Above this are two high stories to be used for school and recitation rooms. Workmen are engaged in finishing the outside. The block and the half of each of the surrounding streets have been neatly graded by Mr. S. Simmons & Son, contractors. Next to the building the ground is high, sloping off at about the same grade toward each point of the compass. The amount of excavating and filling done in this job aggregrate 5,550 cubic yards. The contract will be completed to-day.

WOMEN ON MT. HOOD.—A party of gentlemen and ladies from Salem and vicinity has just returned from a trip to Mt. Hood, and Mr. Garrison, of the party, called on us yesterday morning. He reports that on last Monday several gentlemen and two ladies made the ascent to the summit, starting from the snow line at seven A. M. and reaching the summit at ten minutes past one P. M. They remained one hour on the summit, left several momentos of their visit and descended again to the camp of the night before, arriving at five minutes past five o'clock. The names of the ladies are Miss Fannie S. Case and Miss Mary Robinson, both of Salem. Mr. Garrison says they exhibited remarkable courage and endurance, making the trip without great difficulty and visiting all the notable points to which the gentlemen ventured. This achievement is something for them to boast of, as they are undoubtedly the first white females who ever stood on the summit of Mt. Hood. The late ascent, by ladies, of Mt. Adams, dwindles into insignificance, compared with it, and henceforth Miss Case and Miss Robinson are entitled to the first distinction as female adventurers.

MILITARY DISTRICTS CREATED.—The following is the text of an order recently issued by General Halleck, defining two military districts and assigning commanders:

1. In accordance with the recommendation of Brevet Major-General George Crook, United States Army, the Military District of Owyhee will consist of the following posts, viz: Fort Boise, Camp Lyon, Camp Three Forks of the Owyhee, and Camp C. F. Smith.

2. Fort Klamath, Camp Watson, Camp Warner, Camp Logan, and the new post in Harney Lake Valley, will constitute the Military District of the Lakes.

3. Brevet Major-General Elliott, Lieutenant-Colonel First Cavalry is assigned to command of the District of the Owyhee; and Brevet Major-General George Crook, Lieutenant-Colonel Twenty-third Infantry, to that of the District of the Lakes. The District commanders will select their own headquarters.

GEORGIA WHEAT.—Mr. Knapp, of Knapp Burrel & Co., showed us, yesterday, a sample of Georgia wheat, of the crop of 1867, sent out from New York June 10th. It was sent as an average sample of the crop of this year in that State. It would amaze most Oregonians who are accustomed to see only large, plump grains, to look at this sample and then be told that such wheat was selling in New York city on the 19th of June, at $3 05 per bushel. The berry is very small (scarcely half as large as Oregon wheat) and dark. In this country, such grain would not be ground for anything except, it might be, for feed. If the grain of the Mississippi valley is half as *cultus* as this Georgia specimen, we can readily understand why flour is $14 50 per bbl in New York.

SURVEY OF THE COLUMBIA RIVER.—The organization of the party to survey the Columbia and Snake rivers between Celilo and Lewiston, has been completed and will start from Celilo on Monday. The expedition, under the general direction of Col. Williamson, consists of Lt. W. H. Heuer, of the Engineer Corps, in command of the party, Assistant, Richard Covington, Assistant, W. P. Hall, Capt. Gray of the *Lovely Maria* and a crew of four men. The object of the expedition is to ascertain the extent of the obstructions to navigation, and to estimate the cost of removing them.

EXTRA TRIP TO MONTICELLO.—The *Julia*, last evening, started on an extra trip to Monticello, for the purpose of conveying to that place several of the U. S. officers of this Department, among whom were General Steele, Gen. Elliott, Col. Marshal, Col. Hodges, Major Glenn, and other officers of rank. Several of them are under orders to attend the sitting of a court-martial at San Juan Island. It is understood that Gen. Steele and staff go for the purpose of inspecting the military posts on the Sound, and Major Glenn goes to pay off the troops.

THE FUNERAL OF MR. O'CONNOR AND MRS. SAUNDERS.—Our city bore a gloomy spirit yesterday, in consequence of the funeral ceremonies of Mrs. Saunders in the forenoon, and Mr. O'Conner in the afternoon. On both occasions large numbers of the friends of the deceased, joined in procession and accompanied the remains to their last resting place. It is very rare in this city that so many people have paid their respects in this way, to the memory of persons in humble life.

FIREMAN'S PARADE AND BALL.—The Fire Department of this city will turn out on Monday on annual parade. One or two of the fire companies of Vancouver, in response to an invitation to the Department will attend and participate as guests. We are informed that the usual arrangements to make the occasion pleasant, have been perfected. In the evening, the firemen are to have their annual ball at Turn Verein Hall.

LIGHT HOUSE INSPECTION.—Col. Williamson, having received orders to inspect the Light Houses at Cape Disappointment and Toke Point, Shoalwater Bay, has detailed Assistant Engineer, J. T. Best, to perform the service, and the latter gentleman will start on Monday for the mouth of the Columbia river. Mr. B. was one of the late expedition to Mt. Hood.

EXECUTOR'S SALE.—It will be remembered that Mr. A. B. Richardson has an important real estate sale to-day at twelve o'clock, as auctioneer for the executor of the estate of C. N. Humiston. At two o'clock he sells for the executor of the estate of Wm. A. Ebinger, several parcels of real estate. Each of these sales will afford opportunities to buy very desirable city property.

AGENTS WANTED.—Travet Bros., through their advertisement in this paper, offer extra inducements to canvassers for several standard books, among which are "Our Navy—1861—1865," "Farragut and our Naval Commanders" and "Mitchell's new general Atlas." Address Travet Bros., Box 91, Portland.

WILLAMETTE FREIGHTS.—Arrived per steamer *Senator* from Oregon City yesterday: 36 boxes miscellaneous produce, 9 hlf bbls do. 4 bales woolen goods, 47 sks bacon, 10 boxes dried fruit, 4 boxes eggs, 4 sks hams, 18 boxes apples, 82 dry hides, 60 bags wheat, 160 bags oats and 267 qr sks flour.

STAGE STOCK SOLD.—It is stated that the stage stock and coaches of Mr. Corbett's line were yesterday sold to Mr. Jesse D. Carr, the gentleman who will have the contract on and after the 1st of October.

COOL.—Tom Moffatt sent this office, last evening, a liberal chunk of Cave Ice, for which, the boys unite in resolutions of thanks. It is understood Tom has plenty more where that came from.

THE SCHOOLS.—The Portland Academy and Female Seminary, and the Public Schools of this city will commence their fall terms on Monday.

A NEW MORE LINEN DUSTS left at Barman Bros. at $1 75.

STATE ITEMS.

The Annual Conference of the M. E. Church, South, convened at Dallas on the 28th inst.

A Salem paper says that there are fifty Klickitat Indians camped on Mill Creek, near that place.

At a late meeting of the Board of Trustees of Willamette University, Prof. L. J. Powell was elected to the position heretofore filled by him as Professor of Mathematics. Rev. I. P. Woodard was elected to the chair of Languages and Moral Science and by virtue of that position will be the acting head of the University in the absence of any election of President. We quote from the *Record*. The *Record* has the following: As Mr. Earhart was returning from another Indian hunt, the other day, with three more of the wandering Klickitats, one of them, when over in Benton, near the foot of the mountains, ran his horse into the brush and started off through the chapparal at a killing pace. Struck with the idea that he was about to lose his agreeable company, Earhart started in pursuit, and followed until after a race of six or seven hundred yards, he saw the Indian drop on his hands and knees and dig in the bank with his hands, extracting pieces of a species of soap stone which it seems the Indians use in bathing, and which, on trial, we find to be a very respectable substitute for soap. It makes some lather and leaves the hands soft and clean. The Indians say, all along the foot of Mt Snellin, or Mary's Peak, as it is latterly called, a strata of this stone crops out. It is to be found where the streams have cut a deeper channel than usual, and it would seem that man should find some use for this in his civilized condition, seeing it is of service to his untutored brethren.

ANOTHER TRAITOR DISCOVERED.—The strong-minded women, says the *Herald*, have made the "discovery that there is another traitor just as great and just as deserving of punishment as Jeff. Davis. That traitor is Horace Greeley. After twenty-five years' advocacy of female suffrage he has most treacherously abandoned the cause. We call on Mrs. Elizabeth Cady Stanton, Mrs. Susan B. Anthony, Mrs. Lucretia Mott, Mrs. Ernestine L. Rose, Miss Anna Dickinson and the rest of the strong minded female confraternity, to have a court summoned that will do its business better than the Richmond one, and have this traitor to female rights impeached. We would advise them to employ that sound lawyer and brilliant advocate, Charles O'Connor, to conduct their case, but on the express condition that no straw bail be accepted."

MORE EXTERMINATION.—Among other strange changes on the Western Plains, made by the Pacific Railroad, will be its effect on the great buffalo migrations north and south during the spring and autumn months. The immense buffalo trails that sweep from the States of Mexico to the British dominion, and over which countless herds move northward as the grass begins to grow, and southward as it begins to fade, will be entirely broken up by the railroad, and the trains of cars that will constantly be in motion over it. The buffalo, which like the Indians, have been retreating before the advance of white men, will thus have his last great stamping ground destroyed; and as there is no further retreat possible for him, he will have to prepare for final disappearance from the soil of the United States.—*N. Y. Times*.

The first corporators of Yale College were twelve clergymen, each of whom had laid a book upon the table. Those became the foundation of Yale Library.

HELMBOLD'S FLUID EXTRACT BUCHU

Is a certain cure for diseases of the BLADDER, KIDNEYS, GRAVEL, DROPSY, ORGANIC WEAKNESS, FEMALE COMPLAINTS, GENERAL DEBILITY,

and all diseases of the URINARY ORGANS,

whether existing in MALE OR FEMALE,

from whatever cause originating and no matter of HOW LONG STANDING.

Diseases of these organs require the use of a diuretic. If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the

HEALTH AND HAPPINESS,

and that of Posterity, depends upon prompt use of a reliable remedy.

HELMBOLD'S EXTRACT BUCHU,

Established upwards of 18 years, prepared by
H. T. HELMBOLD, Druggist,
594 Broadway, New York, and
au21d1m3p 104 South 10th Street, Philadelphia, Pa.

STRENGTHEN THE SYSTEM.—The best means of imparting vigor to the broken down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

DR. HOSTETTER'S STOMACH BITTERS.

Debility, from whatever cause arising, may be cured; strength, in whatever manner it may have been wasted, may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific. Sold by Druggists and dealers everywhere.

MANHOOD AND YOUTHFUL VIGOR are regained by HELMBOLD'S EXTRACT BUCHU.

PERRY DAVIS' PAIN KILLER.

Travelers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. PERRY DAVIS' VEGETABLE PAIN KILLER may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs. In this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. Sold by dealers everywhere.

HELMBOLD'S EXTRACT BUCHU gives health and vigor to the frame and bloom to the pallid cheek. Debility is accompanied by many alarming symptoms, and if no treatment is submitted to, consumption, insanity, or epileptic fits ensue.

Are you aware that the Premonitories of Consumption are Coughs, Colds, Bronchitis, Pains in the Side and Chest, Difficulty of Breathing, &c? If you permit these symptoms to run on, Tubercles will be the result, and end in Consumption. Now, if you want to cure these diseases, use **Allen's Lung Balsam** without delay. Consumptives should never give up! and think there is no hope!! until you have tried Allen's Lung Balsam. It has cured many cases that physicians pronounced incurable. Sold by dealers in family Medicines generally.

TAKE NO MORE UNPLEASANT AND UNSAFE REMEDIES for unpleasant and dangerous diseases. Use HELMBOLD'S EXTRACT BUCHU AND IMPROVED ROSE WASH.

DRAKE'S PLANTATION BITTERS

Have been of great service in making people healthy, and keeping them so. They should be found in every household.

They give tone to the Stomach, vigor to the body, and remove dark doubts and unhappy feelings from the mind. They relieve pain and fortify the whole system against the attacks of disease.

There is nothing better to take "for the Stomach sake" than the PLANTATION BITTERS.

They cure Dyspepsia, Heartburn, Indigestion, Drowsiness, Headache, Pain in the Side, Liver Complaint, and Rheumatic Pains, with magical power.

A good effect is felt at once upon making the first trial. No change of diet is necessary. Eat the best you can get and all you want. Follow our directions and you will soon feel

WELL, STRONG AND HEARTY.

A great many side hits are being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. It's all of no use. The people won't be imposed upon. The Plantation Bitters are increasing in use and popularity every day, and "that's what's the matter." They are the same sized bottle, and made just as they were at first, and will continue to be, or we shall stop making them.

They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhœa, Cholera and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.

They are the best Bitters in the world. They make the weak strong, and are exhausted nature's great restorer. The Recipe and full Circular are around each bottle. Clergymen, Merchants, and persons whose sedentary habits induce weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c., will find *immediate* and permanent relief in these Bitters. But above all, they are recommended to weak and delicate females and mothers.

They are sold by all respectable merchants. See that each bottle has our private United States Stamp over the cork and steel-plate side label.

Beware of refilled bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon is a swindler and impostor, and should be immediately reported to us.

Mustang Liniment.

OVER A MILLION DOLLARS SAVED!

Gentlemen:—"I had a negro man worth $1,200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."
J. L. DOWNING.
Montgomery, Ala., June 17, 1859.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic. J. W. HEWITT
Foreman American, Wells, Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment.
Gloucester, Mass., Aug. 1, 1865. ED. SEELY."

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered. Families, livery men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steel-plate engravings, bearing U. S. Stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone-plate label. *Look closely!*

Lyon's Katharion.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.
E. THOMAS LYON, Chemist, N. Y.

Lyon's Extract Ginger.

LYON'S EXTRACT OF PURE JAMAICA GINGER—for Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make a cheap and reliable article for culinary purposes. Sold everywhere at 50 cents per bottle. Ask for "LYON'S" PURE EXTRACT. Take no other.

CAUTION.—See that the private U. S. Stamp of Demas, Barnes & Co. is over cork of each bottle. None other is genuine.

Lyon's Flea Powder.

DEATH TO FLEAS.—It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of fleas, ticks, bed-bugs, roaches, &c.; that it is perfect poison to the insect tribe, but strictly harmless to the human species and domestic animals. The genuine has the signature of E. Lyon, and the private stamp of DEMAS, BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist. will have no other.

G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commends here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

HOSTETTER'S
CELEBRATED STOMACH BITTERS
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
STOMACH, LIVER AND BOWELS
PROTECTIVE PROPERTIES.

Prevents Fever and Ague and Billious Remittent Fever. Fortifies the System against Miasma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels;

Steadies the Nerves and tends to Prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or PRODUCED BY SPECIAL CAUSES.

NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant; but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.

The weak stomach is rapidly invigorated, and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.

As a Genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not least, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day.

SUNDAY COLUMN.

The *Methodist* has the following noteworthy paragraph in an editorial upon the need of an educated ministry: "The day in which a minister can succeed satisfactorily in his work without intellectual training has passed. With the rapid growth of our country and the church in material wealth, there has been also a very great increase in educational facilities. Our common school system has of late years been strongly developed; new institutions of learning have been projected in great numbers; the press is continually increasing in activity as an educational agency, and, as a result, intelligence is much more widely diffused than formerly, and an educated ministry is everywhere needed and demanded by the church."

A New England paper has the following on afternoon sermons:

"Afternoon service is not only unnecessary but it is injurious. It is a harm to the preacher and a headache to listeners. Overloaded stomachs and overworked minds and frames are not adapted to enter the spirit of a church service. Besides, some portions of the Sabbath should be devoted to what it was made for, rest; and our people would appear to better advantage, and realize more comfort by being at home, than in church, sweltering with the heat, or thinking between naps of the smart things they have done through the week."

What is happiness? Ask the man of the world whose soul is bound up in "the almighty dollar," and you will learn that it is a brisk business, with the dollars rolling into his coffers faster than his wants can roll them out.

What is happiness? Ask the poor student who is struggling with poverty to obtain an education. He will tell you that a few dollars from the rich man's purse, to enable him to gratify his thirst for knowledge, would bring him all the happiness he would ask of life.

What is happiness? Ask the author, and you will learn—authors have weaknesses in common with other men—it is to win a crown of literary fame.

What is happiness? Ask the fop, as he passes you, flourishing his gold headed cane, and he will tell you, if he speaks the truth, it is to be garbed in the richest and most fashionable coat on Broadway or Washington street, and to attract the eye of the admiring crowd.

What is happiness? Ask the thoughtless young lady in her dressing room, where she is preparing for a ball, and you will soon learn it is to be the belle of the ballroom.

What is happiness? Ask the poor widow, as she sits at midnight plying her needle to earn the common necessaries of life for her little fatherless children. She will reply: "Give me employment and strength, to enable me to feed, clothe and educate my children, and I will thank God for the blessings he has showered upon me."

What is happiness? Ask the invalid, as he tosses his aching limbs upon his bed, and you will find the wealth and fame are but bubbles; without health, all other blessings become blessings only in name.

What is happiness? Ask the Christian, and he will tell you that *true*, lasting happiness is not dependent upon wealth or fame. It is a heart overflowing with benevolence toward his fellow beings and whose happiness is bought by adding happiness to those around him. It is a calm, trusting faith in God, that enables him when dark clouds of affliction and trial hover over him, to feel that the blessings they bring with them, are needed to rear the drooping graces of his heart.

Beecher says: "Remember the way of prayer. How often have we gone to the throne of grace asking and seeming not to receive! When we look on the [illegible] of struggle, at our prayers, often our [illegible] [illegible]; but when we look upon the whole of our [illegible] and judge of prayer, not specially but generally, we wait, giving it time for fulfillment, working it out by our own instruments, [illegible] that every true Christian man is convinced at last, that God has given him a harvest in answer to his prayers which he had no reason to expect. No man can look upon what he brings [illegible], and what the work becomes in his hands without being humbled in view of his [illegible], and, I trust, also, without being filled with admiration and reverence for that loving Hand that does exceeding abundantly more than we ask or think."

"Something once," says Dr. Payson in a letter to a young clergyman, "I took up a little work purporting to be the lives of sundry characters as related by themselves. Two of those characters agreed in remarking that they were never happy until they ceased striving to become great men. This remark struck me as you know the most simple remarks will strike us when heaven pleases. It occurred to me at once that the most of my sufferings and sorrows were occasioned by an unwillingness to be nothing which I am, and by consequent struggles to be something. I saw if I would cease struggling and consent to be anything or nothing just as God pleases, I might be happy. You will think it strange that I mention this as a new discovery. In one sense it was not new, I had known it for years. But I now saw it in a new light. My heart saw it and consented to it, I am comparatively happy. My dear brother, if you can give up all desire to be great, and feel heartily willing to be nothing, you will be happy too."

In my youth I had a friend who was a woman of genius. She studied Goethe, and was thoroughly familiar with his thoughts. She also adopted it as her rule, and said that she early learned that the only object of life was to grow. With wonderful untiring energy she pursued this end, and cultivated every faculty and power to the very highest point. She was an extraordinary woman, yet not altogether a satisfactory woman. There was something haughty and self-reliant, some want of sympathy, some contempt for common people, which hurt you in intercourse with her. To her friends, she was all generosity; but, to others, indifferent and unsympathizing. But God did not mean that such a noble soul should stop there. Doing so much, he meant that she should be more; and so he took her through a deep experience of weakness and sorrow, through heavy days, through poverty and pain and trouble, she had learned to add this crowning grace of human sympathy and tenderness to all the rest. She grew up into Christ, and devoted these ripe and rich powers to the cause of His poor, His wounded and prisoners, His enslaved and oppressed ones; and so the woman of genius became at last also the Christian woman, risen with Christ, and sitting in heavenly places with him.—*J. F. Clarke.*

FINANCE AND COMMERCE

WEEKLY REVIEW.

PORTLAND, FRIDAY, 2 P. M.,
Aug. 30, 1867.

In New York yesterday gold was 142⅛, an advance on former quotations, under the influence of political news.

In San Francisco, last evening, legal tenders were 71½ buying, and 72 selling. Gold drafts on Atlantic cities were quoted at 1½ per cent.; a decline of ¼ per cent from the day before. Currency drafts remain at 5 per cent. premium. Gold telegraphic transfers are selling at 1½ per cent; a decline of ⅛ per cent. from yesterday. Gold bars rule at 830.

Business in general continues fair, with improving aspects. The operations in produce during the week, though not large, have been quite equal to expectations. The season of harvesting and threshing is not yet over, and until the crops are all taken care of, it is not expected that produce will move in very considerable quantities. The demand for the San Francisco market is about as usual, while Victoria is asking somewhat increased supplies. The *Fidelitér*, which sailed on Wednesday, took a full cargo of flour, grain and fruit. There are several orders in the hands of dealers, which remain unfilled in consequence of the *Fidelitér's* inability to take the goods on board. Fruit is understood to be in strong demand in that market, at good prices.

Flour—the tone of the market remains unchanged. The supply is just about equal to the demand and prices remain steady.

Bacon—is still in request. Sides have advanced 1 cent; hams, very scarce and selling readily at 20@22c. There is very little of either in the market.

Beans—scarce and generally a little higher than last week.

Lard—very little arriving; market nearly bare; in tins is higher.

Agricultural goods—mostly out of season and no sales being effected, worthy of note. Dealers will next week have a revision of quotations.

Hardware—there are no changes to note in prices; but there has been a decided improvement in trade the past week, particularly with points East of the mountains. Staple goods firm at prices quoted.

Groceries and liquors—trade has been very good. A very decided improvement in the demand for the mining regions is noticeable. Heavy orders for the Montana market were received yesterday, and will be filled for the Monday's steamer. There are several merchants here from Missoula and other towns of Montana, who represent that the last shipments which it is possible to make from St. Louis, have arrived, and that for the rest of the year, till next June, the trade must depend on supplies from Portland. Under the influence of these prospects, the prices of all descriptions of light groceries are quite firm.

Weekly Retail Family Market.

PORTLAND, Aug. 30, 1867.

Business is quiet. Green fruit is without a market outside of local demands; consequently dull sale. Dried fruits, such as pears, apples and plums, are in active demand, particularly plums, for which there is much inquiry. Farmers would do well to take notice and dry their fruit, putting it in good shape for market. Provisions are firm and tending up. Poultry is cheaper. Game in good order is wanted. Vegetables are very cheap, and rule so low as to leave no profit and scarcely sufficient to pay for labor of raising. The assortment is very fine for all varieties of the season.

Cotton Goods and Woolen Market.

PORTLAND, Aug. 30, 1867.

There are no changes in quotations. Trade rather dull. The supply of woolen goods is still far beyond the wants of the country. Of late several large orders of bale goods and made up clothing have been filled for Montana and Idaho; but the supply on hand is not sensibly decreased. The approach of winter, however, affords hope that the large surplus will soon begin to be worked off.

"CAPITAL CITY CHRONICLE."

J. H. UPTON & A. NOLTNER, Proprietors.

ON SATURDAY, AUGUST 31, 1867, A LARGE SIZE WEEKLY PAPER, with the above title, will be issued at

SALEM, OREGON.

The CHRONICLE will be devoted to Politics, News, and the development of the varied resources of the State. In politics the CHRONICLE will be unflinchingly Democratic, supporting and advocating all those reforms in National and State polity, so urgently demanded at the present time by every consideration involving the weal of the American people. The necessity for a Democratic organ firmly planted at the Capital, will be at once apparent to every thinking Democrat in the State. Such a one we propose to make the CAPITAL CITY CHRONICLE, and with the State thoroughly Democratic to-day, with all prospective changes in favor of that party, there is no valid reason why the enterprise shall not prove a complete success.

While the CHRONICLE will devote ample space to the discussion of political topics, the News of the day, the Agricultural Mining, Mechanical and Manufacturing interests of the State at large will receive due attention. A twenty eight column paper, 20x38 inches in size, will furnish ample space and enable us to present in each number an amount of reading matter equal to the importance of the interests involved. We only ask at the hands of the people that legitimate patronage which shall enable us to present a sheet in every way creditable to ourselves and the State—one which none may have the least reason to be ashamed of.

All contracts for advertising and subscription existing with the late *Democratic Review* will be faithfully executed by the proprietor of the CHRONICLE.

Terms of Subscription:

Single copy, one year	$3 00
Five copies, one year	13 75
Ten copies, one year	25 00

And for any greater number, one year, at the rate of $2 50 each.

LEFFEL'S AMERICAN DOUBLE TURBINE

THESE WHEELS, unequaled and unrivaled in the United States or the world, have been fully tested on this coast, more than forty being in use at this date, driving all kinds of machinery, Saw Mills, Flour Mills, Quartz Mills, Woolen Factories, &c., &c.

On account of the late calamity to the OREGON IRON WORKS we have lost a few Wheels, but of those sizes we have a good supply, therefore those contemplating using this Wheel need not be disappointed, but forward their order at once, accompanied with the CASH, which we *now need* more than the Wheels.

We cheerfully refer to all using our wheels, and are assured that *all will affirm that our wheels accomplish all and even more than we claim for them.* Address

CARD.

DR. BARLOW J. SMITH'S WATER CURE AND Phrenological Institute, 627 Sacramento Street, San Francisco. This is the only Regular Water Cure in Francisco, where all curable diseases are treated without drugs. Dr. Smith was the first to establish a water cure on this coast, based upon the theory and practice of the New York Hydropathic College.

We have a truly healthful boarding place for men, women and children, and our prices are moderate.

The Phrenological organs plainly indicate the diseases to which any person, male or female, is predisposed.

Put this card in your hat, and when you come to San Francisco, call on Dr. Smith. He will give you consultation and a phrenological examination in regard to health. It will cost you nothing and may save you months and years of ill health, and "bad luck."

Dr. Smith gives free lectures to gentlemen every Friday evening, on subjects pertaining to health, at his Phrenological Hall, 627 Sacramento Street.

RENNICK'S SITKA LINIMENT!

THE MOST REMARKABLE DISCOVERY EVER MADE!

Will Cure All Pains in a Few Minutes!

Read the Certificates:

RHEUMATISM CURED!

PORTLAND, August 10th, 1867.

I HAVE SUFFERED A LONG TIME WITH RHEUmatic Pains, and until now have found nothing to relieve me. To day Mr. J. G. Rennick called at my store and assured me that he could cure me in a few minutes. I thought he was mistaken, and laughed at him, but found to my surprise that a few moments after the application of the SITKA LINIMENT, I was relieved of my pains, and I am now improving very fast. I now believe it will cure me in a few days. For further information call at my store, No. 182 First street.

F. WEGNER.

SPRAINED WRIST CURED.

PORTLAND, August 10, 1867.

I was at Mr. Wegner's store on Saturday, August 10th, and seeing the magic effect of J. G. RENNICK'S SITKA LINIMENT, in his case, concluded to try it on my wrist which has been sprained for some time. I found relief inside of FIVE MINUTES from its application, and it is now perfectly well. My wrist was so swelled I could not shut my fingers. I believe it will cure any pain in a short time. I will give any further particulars to whoever calls on me.

VINCENT McCULLOUGH,

Tumor Removed!

PORTLAND, August 10th, 1867.

I HAVE USED RENNICK'S SITKA LINIMENT for pain and swelling of the gum and cheek. I had a large tumor forming on the gum which arose from killing the nerve in my tooth and caused me a dreadful pain which prevented me from sleep for several nights. I applied the Liniment, and to my surprise, it removed the lump and eased the pain so that it is now as well as the other cheek. My cheek was fearfully swollen. This was done in the presence of two witnesses.

I. MITCHELL.

I was present and know the above to be true, and am willing to swear to it L. QUIVEY.

PORTLAND, August 12th, 1867.

For five years I have suffered with a pain or weakness in my back, which at times was dreadful. I often thought I could not bear such torment. But I got a bottle of RENNICK'S SITKA LINIMENT, and with one rub it perfectly cured me. I can recommend it to any lady suffering from pains in any way, for I am convinced it will at once remove them. DORE COHN,
Corner of Fourth and Taylor streets.

Any person who does not believe this can call, and I will convince them.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out [illegible] existence from the effects of secret indulgence [illegible] absorbed into the system! Look at [illegible] [illegible] ted and disfigured faces and their broken [illegible] tions, disqualifying them for the happ[illegible] or the enjoyment of life. In this horri[illegible] sands suffer until death closes the scene [illegible] parents, guardians, friends, attend to those who are [illegible] with any of these horrible life-destroying maladies, see that they are cared for and cured before it [illegible] late. Send them immediately to Doctor Gibbon, [illegible] has made private disease his especial study [illegible] is certain to cure the most inveterate [illegible] mercury or any injurious drugs. It [illegible] who are afflicted, or to those who [illegible] welfare of their friends, to be careful [illegible] pretended doctors who infest all cities, [illegible] their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sensual indulgence, is practised by the youth of both sexes [illegible] producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not [illegible] the sacred responsibility resting upon them nor delay to obtain immediate relief.

TO THE LADIES.

The various complicated and distressing diseases incident to females, treated with eminent success. Such as Suppressions, Irregularities, Whites, Falling of the Womb, Tumors, all Urinary Diseases, Nervous Debility, Painful or Difficult Menstruation, Barrenness, etc., will be speedily cured, without poisonous drugs, injuries or unpalatable medicines of any kind. Have no delicacy in calling, no difference what your troubles may be. The afflicted are cordially invited to call and satisfy themselves.

Persons calling at Dr. Gibbon's office or sending for packages of medicines, may rely upon his assurance of confidential secrecy with implicit faith, and expect no more than to be charged with, a fair, and mutually satisfactory remuneration for services rendered, considering the circumstances and difficulties of cases, rather than a too prevalent and selfish practice of extortion among quacks and pretenders.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252. Consultations FREE.

DR. HENLEY'S

Fountain of Life!

THE

GREAT BLOOD PURIFIER!

IN EVERY PROGRESSIVE SCIENCE PERIODS ARrive when a new direction is imparted to its course. These epochs proceed from discovery of new facts shedding a light which changes the whole aspect of the science. The present is an epoch of this kind, and this Great Remedy, now offered to the public, in connection with the theory on which it is based, is destined to effect an entire revolution in the treatment of the diseases of

SCROFULA AND KING'S EVIL!

by eradicating the disease entirely from the blood. The FOUNTAIN OF LIFE is composed entirely of vegetable extracts; it contains no Mercury or other mineral substance.

The Proprietor and Discoverer of this Sovereign Remedy CHALLENGES THE WORLD to furnish anything, from the days of Æsculapius down to the present time, in the arcana of Medical Science, which can vie with or excel the intrinsic properties of this Great Blood Purifier. Its value has been tested with the happiest effect in the most obstinate cases of Scrofula, that baffled the skill of the most eminent physicians in the world. No matter what form the dreadful disease of SCROFULA and KING'S EVIL may have assumed, it can in no way be more safely and certainly arrested in its progress than by HENLEY'S GREAT BLOOD PURIFIER. Thousands have been swept into their graves, who had they made a timely use of the FOUNTAIN OF LIFE, might now be enjoying the blessings of life and health. It requires an article of real merit and intrinsic value to sustain itself. During the stern ordeal of public experiment the FOUNTAIN OF LIFE has stood the test trial, and not been found wanting.

☞ Dr. HENLEY guarantees to CURE any case of SCROFULA or KING'S EVIL in the world, and eradicate the disease entirely from the system, or no charge made—provided they will secure him his pay when they are cured.

FOR REFERENCE:

I would refer you to L L. Peck, of Portland, Oregon, and numbers of others, as to what a miraculous effect it had in a short time, in cases that had baffled the skill of physicians for years
